

BioHorizons a Henry Schein Company embraces diversity and is committed to providing equal opportunity to employees and applicants. If you are unable or limited in your ability to complete the application process, including the use or access of [www.biohorizons.com/careers](http://www.biohorizons.com/careers), as a result of a physical or mental impairment, you can request reasonable accommodations.

Please e-mail [humanresources@biohorizons.com](mailto:humanresources@biohorizons.com) or the type of accommodation you are requesting. Please include your first and last name, phone number, position for which you are interested in applying and geographic location in your request.

What You Can Expect:

- Once we receive your e-mail, we will contact you via e-mail or phone regarding next steps.
- Note that you may need to provide information regarding your disability and the need for your requested accommodation.
- Henry Schein will only share information regarding your requested accommodation with those individuals who have a specific need to know.
- The request for an accommodation will not affect Henry Schein's hiring decisions.

*\*Please note this process is limited to requests for accommodations in the application process. Only requests for an employment application accommodation will result in a response. We will not consider any resumes attached to the request for accommodation—resumes should instead be submitted through the link on our website. If you are having technical issues applying online, please e-mail [humanresources.com](mailto:humanresources.com). We will provide accommodations to persons with disabilities in regard to job duties, but that is separate from accommodations needed in connection with the application process.*
